Dear Ms. McDonald:

In accordance with Paragraph 12 and Appendix E of the referenced COA, enclosed is the monitoring report covering the analytical results of effluent samples which were collected from the "Interim Leachate Treatment System" at the site during the month of April 1989. These results establish that the quality of the treated effluent was in full compliance with the interim effluent limits stipulated in Paragraph 11 of the COA. Also, enclosed are the analytical results of the backwash stream from this interim treatment system during the same reporting period.

If you have any questions or comments, please advise.

Very truly yours,

Samuel B. Balamoun
